

## Sizzling September Update

Something a bit different for the September issue of the VBL newsletter. This time around, we're including all the news in the email. No PDF to click on or open -- just keep scrolling. Depending on the email app you are using, you may need to click on "Show Images," "Show Remote Content" or something similar to see the pix, but otherwise it's scroll and go!

Our plan is to publish a four-to-six page PDF newsletter during the even-numbered months, when we would have been mailing out a newsletter anyway before COVID-19 upset all of our lives. During the off months, odd-numbered months like September, the plan is to send the news via email. We'll see how this works out!

## VBL Gives Thumbs Up for Zoom

VBL's first Zoom meeting on August 13 seemed to be a hit with the members who attended. So much so we're going to try it again on what would have been our in-person meeting on October 8. One cool thing about Zoom—we're no longer limited to the Sacramento area for speakers. We can bring in a guest presenter from quite literally anywhere in the world. If any of you have contacts with big names in broadcasting in, say, New York or Washington who might be willing to Zoom with us, be sure to pass it along to President Jim Drennan, [jdren88799@aol.com](mailto:jdren88799@aol.com).

## Mugs, Masks, Mousepads Galore

And, of course, shirts, shirts, shirts! The VBL Boutique is open for your business. Thank you to board member Bud Kress for setting up our online emporium, as well as hosting our August Zoom meeting.

## Congrats, Jerry Henry

Jerry started out at KAHI radio in Auburn in August of 1995 as a nighttime board operator. Twenty-five years later, he's President and General Manager. Talk about climbing the ladder to success! By the way, KAHI is also the home of Legends Barry Stigers and Mary Jane Popp. Congratulations, Jerry! Photo of Jerry by our own Matías Bombal, whose movie reviews are regularly heard on KAHI.
